VENDOR MANAGEMENT

Cenergy is the most dependable source of workforce solutions in the oil and gas industry. We provide specialized energy personnel, safety services, inspection services, logistics optimization and vendor management. We're dedicated to delivering the right people, with the right knowledge and experience, anywhere in the world.

REDUCING LOST-TIME INCIDENTS

Our lost-time incident rate is significantly better than the industry average—and a big reason why our safety performance consistently leads the industry.

GLOBAL NETWORK

Regional offices in Canada, Australia and Scotland compliment our network of consultants that span the globe, providing resources in even the most remote locations.

SAFETY FIRST

Cenergy is dedicated to safety and our safety records prove it. Our staff and personnel are tested and trained in health, safety, security and environmental work practices. All Cenergy personnel are subject to pre-deployment and random drug and alcohol testing. We stress industry best safety practices such as Job Hazard Analysis, Stop Work Authority and Behavior Based Safety—and we provide a client-specific orientation to ensure our personnel understand your specific environment.

PERFORMANCE-READY

Finding the right people with the right experience is what we do. We specialize in providing exploration and production experts, geologists and other technical/business professionals, highly qualified engineers, HSE advisors/trainers, rig supervisors and dispatch clerks. Regardless of what you need, you can rely on Cenergy to provide personnel that are performance-ready.

PASSIONATE SERVICE

Our staff works tirelessly to recruit and retain the best people in the industry and our experienced account teams understand your requirements and needs. Exceptional, quality service is our passion and no one will work harder for you than Cenergy.
